LES PRINCES DE
LA NUIT

N°254 du mercredi 23 décembre 1995 au mardi 4 janvier 2000

Le dj à l'ancienne

Dj [redacted] : Amuseur

professionnel ...et j'ai une approche très professionnelle : nuance !

À 35 ans et 15 ans de djs dans les doigts, [redacted] porte avec fierté le flambeau du dj "à l'ancienne", celui qui passe des disques pour amuser, celui qui en vit comme salarié de boîte de nuit. "Je ne crois pas être un employé comme les autres : je suis l'élément moteur principal de la nuit. On ne peut pas non plus me voir comme un ringard qui passe toujours les mêmes disques, qui s'encroûte dans la routine", corrige justement ce jeune homme passé maître dans les fêtes étudiantes :

[redacted] ont tous dansé sur l'éclectisme de [redacted]. Son regard détaché sur la

Ah bon ?..

Je fais en sorte que les gens soient joyeux et s'amuse...

"mode" du djiing ("Aujourd'hui, tout le monde veut être dj. Ils mixent, se promènent dans la rue avec des sacs djs. Combien arriveront à en vivre ?"), sur les petits travers du métier ("Bien sûr que lorsque tu fais s'éclater autant de gens, tu peux prendre la grosse tête") nous replonge dans le rêve réalisé d'un adolescent OUI admiratif devant ce que pouvait représenter un disc-jockey avant la déferlante

des musiques électroniques : une petite star de la nuit qui s'amusait et amusait, très loin de ce statut d'artiste vagabond qu'on peut lui coller d'aujourd'hui. **B. J.**

Play-list :

- **Bloodhound Gang**, *The Bad touch & Along comes Mary*, Geffen
- **Kluster**, *Bad to the funk*, Tripsichord **Back**
- **Liquido**, *Narcotic* (original & remix techno), Virgin
- **Tom Jones/Mousse T.**, *Sexbomb*, GUT
- **Rammstein**, *Du hast*, BMG

Ampoule, cintre ou coton tiges

ERIC EST DE BONNE COMPAGNIE. Il sait s'adapter à toutes les situations, résoudre tous les problèmes, puiser il a toujours tout sur lui. Passés les habituels stylos, lampe ou autre couteau suisse que tout un chasseur a dû mettre dans son sac, un jour ou l'autre, Eric recèle de nombreux trésors insoupçonnés. Un exemple ? Que feriez-vous d'un châteaumeu à longueur de journée sur vous. Rien ? Et pourtant, Eric y voit une utilité évidente. « J'ai une formation de bricoleur, c'est très pratique, je m'en sers très souvent », raconte-t-il. Dans la série bricolage, Eric a réservé une place dans son arsenal d'apprenti James Bond à une ampoule, un cadenas, une clé à molette, un adaptateur pour fiches électriques ou même un fer à souder... Que voulez-vous, Eric est prévoyant : il ne sort jamais sans comprimés d'aspirine ou une brosse à dents, certes, mais aussi sans ses coton tiges ou sa boîte de granulés homéopathiques... Parmi les inclassables, Eric trimballe aussi des mini boutons presse-étoupe, une boussole, un cordon audio ou un cintre. La liste serait trop longue à énumérer ici mais la chose la plus importante à se rappeler reste peut-être l'humour, car ce jeune homme n'en manque pas...

Il fait lire "boutons-poussoir" au lieu de "boutons presseur" (ce sont des boutons électriques miniature pour des tricoteuses)

mier article de journal (21/04/2001) (article fait pas en entier dans le scanner, désolé...)
OMME QUI SE PROMÈNE AVEC 1 200 OBJETS
LIRE CI-CONTRE

Éric, couteau suisse humain

Éric est prévoyant... Durant cinq ans, il a amassé une collection d'objets utiles pour son quotidien et a adapté sa tenue pour les avoir sur lui en permanence. Au bout du compte, il se retrouve aujourd'hui avec une tenue de 12 kg qu'il revêt quotidiennement qui comprend plus de 1 200 objets. Prochain objectif : le livre des records.

« J'ai à moi même... différemment des autres... C'est une certitude, Eric est une personnalité à lui tout seul... Deux facettes d'un homme âgé d'une d'années qui cultive la discrétion. Parmi ces facettes, Eric s'est orienté petit à petit vers... »

Dear M Lucas,

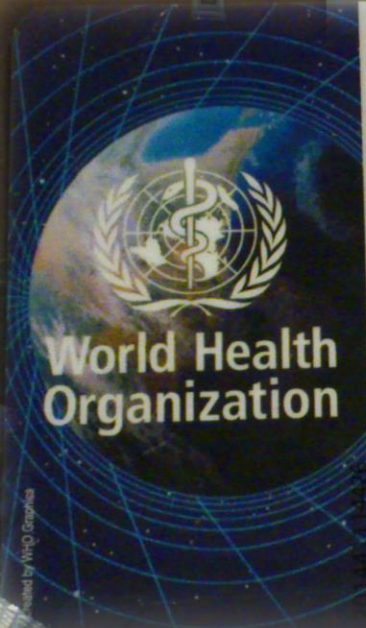

Thank you very much for your message. I found your testimony completely believable. I want other people not to suffer what you have suffered. I was also deeply impressed with your description of what you are doing in your Alliance to use your knowledge of the situation to help other people for whom it is useful. One of the privileges of the work I do is meeting such dedicated people who make sacrifices to help the lives of others, even when progress is slow. I certainly consider you to be one of those admirable people, and I am very glad to have learned about your efforts.

with all best wishes,
Gerald Neuman

Convention on the Rights of the Child

60. The Committee urges the State party to take immediate measures to ensure that the rights of children with autism, especially their right to inclusive education, are respected, that the 2012 recommendations of the High Health Authority are legally binding on professionals working with children with autism, and that only therapies and educational programmes that conform with the recommendations of the High Health Authority are authorized and reimbursed. The State party should also ensure that children with autism are not subjected to forced institutionalization or administrative placement and that parents are no longer subjected to reprisals when refusing the institutionalization of their children.

Defending autistic children

October 2015

Monsieur Lucas,

Au nom du département de la Santé mentale et abus de substances psychoactives, j'aimerais vous remercier pour votre participation au Forum du Programme d'action de l'Organisation mondiale de la Santé (OMS): combler les lacunes en santé mentale (mhGAP), qui s'est tenu au siège de l'OMS à Genève, les 8 et 9 octobre 2015.

Votre témoignage est très utile et nous avons beaucoup apprécié votre intervention.

Nous vous souhaitons le meilleur pour vos projets futurs et vous prions d'agréer, Monsieur Lucas, nos meilleures salutations.

Kazakhstan 

1/ AUTISM

(deep nature,
essence of autism)

1/ AUTISMO

(natureza genuina,
essencia do autismo)

2/ TROUBLES

associated with autism
(not "autistic troubles")

2/ TRANSTORNOS

associados com o autismo
(não "transtornos autistas")

3/ HANDICAP

(mostly a social consequence
of 1 and 2)

3/ DESVANTAGEM

(geralmente uma
consequencia social
de 1 e 2)

February 2016

Kazakhstan 

1/ DEEP NATURE OF AUTISM :

a- Purity

b- Coherence / harmony

c- Richness & accuracy

(The very high sensitivity
is a consequence of a,b,c)

- **Auto-protection**

(strength and resistance of a,b,c)

1/ ESSENCIA DO AUTISMO

a- Pureza

b- Coerencia/ harmonia

c- Riqueza & precisão

(A alta sensibilidade é uma
consequencia de a,b,c)

- **Proteção pessoal
automatica**

(força e resistencia)

February 2016

Kazakhstan 

2/ TROUBLES OR DIFFICULTIES

- a-- “Autistic Behaviours Perceived As Troubles”
- b– “Problematic Autistic Behaviours Resulting from Social Agressions”
- c– “Harmful Autistic Behaviours”
- d– “Diseases Associated With Autism”

2/ TRANSTORNOS OU DIFICULDADES

February 2016

Kazakhstan 

3/ HANDICAP

resulting almost always from the rejection and exclusion of the autistics (in many ways, and usually people are not aware about it), which comes from the impossibility, for society, to take autism into account correctly because they should admit their global error and illusion, based on a lack of courage blocking all

3/ DESVANTAGEM

February 2016

Kazakhstan 

Some other points of the conference in Kazkhasan :
A/ Non-Autism and Non-Autistic Troubles :

The Truth-Transformation Trouble
The Artificial Relativist Referential
The Normalitaristic Trouble (or Trouble of Normocentrism)
The Comfortabilistic Trouble
The “Rule of the Strongest Because Most Numerous” .
The Non-Autistic Communication Troubles

February 2016

Kazakhstan 

F/ What should be done to improve the situation of autistics in general :

De-normalitarization

Awareness, understanding

Education

Stop hurting, stop the medical dictatorship

Respect

Protection

Accommodations

Work and creativity

Right place in society

Help us to be daring and autonomous

Opportunities

February 2016

**: The word "therapists" (which is the "normal" wording) is here between quotes because, given that autism is not a disease, the personnel or trainers should be called "educators" or "teachers" or something similar.*

Here is the audio recording (converted as a video, easier to use) of a questions & answers session in an ABA center in Bishkek (capital of Kyrgyzstan), on 2 february 2016.

This center has a lot of equipments and rooms ; the staff seems good and dedicated, and the children seem to make progresses.

Click on a question, to go there directly.

March 2016

(click the links to listen)

0:00:00 – Beginning – explanation about the “not-a-real-room” and “lack of door” problem in the first part

0:03:02 – Self-presentation – “revelation” thanks to the discovery of “Asperger syndrome” – the misunderstandings

0:05:58 – Idea of creating an association – very short mention of the situation in France

0:06:47 – Huge misunderstanding between “autism” and the “normal” society – “autism-seen-as-a-disease” – the biological difference – “the law of the most numerous” – fright – when you can’t understand someone... – there is always a reason for the autistic behaviours

0:10:28 – This reason is always a “neurological aggression” (sensory or mental)

(exactly at this moment, occurred in the room an very little example of “neurological mental aggression”, with the “door not completely closed”)

0:12:13 – The 2 types of “neurological aggressions” : sensory, and mental – a few mentions about the links between both – the “inconsistencies” and incoherences and non-natural variations – the “order” – very very high sensitivity

0:17:23 – This hypersensitivity to details and variations can be a quality, for a job for example – talents – Israeli army using Asperger persons to spot non-natural details on satellite pictures

0:18:02 – The autistic nature = nature and harmony – autistic mind in the nature : no conflicts – non-sense of society – autistic “logical, pure mind”

0:22:36 – Always reasons for “strange gestures” (flapping etc.)

0:23:15 – Explanation of the progress of autistic problems : very little details (that no one else sees or feels) → neurological aggression → irritation → accumulation of irritations over the time (plus various mental aggressions due to the primary aggression) → difficult to explain or express (and frustration linked to that) (many times the irritations come from the others – example of the little problem of the morning – sun and shadow and social obligations) (when society think there is no problem, they just say “there is no problem”) (boiling water or milk) (problems to express oneself when one is irritated – risks of fast escalation) → even when you can explain, sometimes they don’t believe you → even if they believe, generally the people who could stop or reduce the aggression don’t want to do it, or are not authorized to do it, because

devido a um grave perigo resultante desprezo da natureza e da verdade”.

O OMDVN esforça-se por:

- defender a liberdade, a justiça e a protecção seres humanos vivendo original e vulnerável -plantas e animais;
-minorias étnicas humanas, biológicas ou outras contra o abuso, opressão e destruição imposta por “a lei do mais forte porque muitos mais” um sistema social global artificial, ilusório, materialista, “confortabilista” e “normalitarista”;
- mostrar que os problemas da sociedade mais humana vêm de uma falta de respeito pela natureza e a verdade
-Não só devido à destruição do ambiente natural e a vida animal ou desnaturação (artificialização) de alimentos, por exemplo;
– Mas também porque a ilusão, ficção, mentira e a deformação da percepção da realidade natural, resultando em uma “desordem social generalizada mental” com que a maioria das dores e sofrimento social e desnaturação / automação do homem;
- promova a cooperação entre diferentes organizações (governamentais ou não governamentais) em relação

pedido de ajuda e conselhos
